

Pest Compliance Checklist: Utah State Prison

From the Corrections Pest Reference (correctionspestreference.org), by Trenton S. Frazer, M.S., Board Certified Entomologist (BCE #B3413). Profile: Utah · state prison (Utah Department of Corrections) · food prepared on site · no ICE or U.S. Marshals detainees.

This checklist lists what each authority's text requires and the record that would show it. It is not a determination that any facility complies, and it is not legal advice. Each row cites the authority; the site quotes the source text for every one. A facility holding U.S. Marshals or ICE detainees has additional rows: set the profile at correctionspestreference.org/tools/compliance-map/.
